

## **The Mandala Pilgrimage: An Inner Journey**

This program is an advanced training for members of our community that have completed the Spiritual Guidance training. The Mandala Pilgrimage was originally conceived as a year-long practice that could be done in the context of daily life. As an inner journey it seeks to further integrate themes from the initial Guidance Training along with the advanced courses of the Alchemical Operations and the Essential Archetypes. These themes have been expanded and several new ones are included as mentioned below.

A manual will accompany the training, which includes a body of practices, some newly created, and related teachings. Having completed the Mandala Pilgrimage program you will have the experience necessary for the year-long practice if you choose to engage it. You will also have the resources to design days of contemplation and practices for guiding others.

The mandala is a symbol arising out of the Soul or Self to foster further integration within the psyche. The particular mandala we will be journeying through is the symbol for the Spiritual Guidance Wisdom School.

The Mandala Pilgrimage completes the core studies within this wisdom school. In the extensive introduction to the manual, many insights are offered on the retreat process and working with those who are seeking spiritual guidance.
